AXXIS™ Smart Line Tester

PRODUCT DESCRIPTION

The AXXIS™ Smart Line Tester is a small low current device that is used to test a surface line, and which has a number of detonators connected to it for leakage, current consumption, and functionality.

PRODUCT SPECIFICATIONS

FUNCTION
- Device for safely testing lines for leakage before blasting time
- Safety testing functionality of the detonators

MAXIMUM NUMBER OF DETONATORS
The maximum number of detonators on a line that can be tested is 50. The reason for this is that the leakage tester generates a very low energy current for safety reasons.

MAXIMUM CURRENT OUTPUT
20 mA

POWER SUPPLY
Li-ion Batteries
