AXXIS™ CENTRALIZED BLASTING BOX

PRODUCT DESCRIPTION

The AXXIS™ Centralized Blasting Box is specifically designed for the AXXIS™ CBS and is remotely controlled from the AXXIS™ Centralized Control Box installed on surface.

The AXXIS™ CBS provides reliable firing of up to 100 AXXIS™ Electronic Delay Detonators (EDDs) connected in parallel. It incorporates a cradle to allow for the reading of AXXIS™ EDD unique identifications (UIDs). The Box has automatic cable fault tracing and is able to isolate downstream cable faults.

PRODUCT SPECIFICATIONS
